

SHUBHAM NANAWARE

Pune, Maharashtra • +91-9762664487 • [Email](#) • [LinkedIn](#) • [GitHub](#)

Frontend Developer with 2+ years of experience building high-performance web and mobile applications using **React, React Native, Next.js, and TypeScript**. Demonstrated expertise in delivering clean, accessible, and SEO-optimized code. Proficient in API integrations, state management with Redux and Context API, server-side rendering, cross-platform mobile development, and modern front-end technologies. Currently expanding backend development skills in Node.js.

PROFESSIONAL EXPERIENCE

Markytics

Dec, 2022 – Present

Frontend Developer [Website](#) [Play Store App](#) [Apple App Store](#)

As a frontend developer, I took on the challenge of migrating existing Django templates to Next.js. By leveraging server components for non-authenticated pages, I significantly boosted performance and SEO. But that's not all - I also:

- Implemented efficient data fetching and remote state management using Client Components with **SWR**, making our app faster and more responsive.
- Used **Context API** to manage user-related global data and Next.js **Search Params** to store data in URLs, making our app more intuitive and user-friendly.
- Integrated Razorpay payment gateway, ensuring seamless transactions and a smooth user experience.
- Collaborated with our design and backend teams to deliver exceptional **UI/UX** design and API handling.

To ensure our app was always up and running, I:

- Deployed the website on an **AWS EC2** instance with **PM2** for continuous uptime, guaranteeing maximum availability.
- Set up a development version on **AWS Amplify**, streamlining our development process.
- Integrated Google Analytics for valuable insights and Google Captcha for enhanced security, keeping our users safe.

Developed a React Native app, leveraging Expo Router for navigation and EAS Build for APK and AAB file generation.:

- Implemented **React Query** for efficient data fetching with auto-refetch on focus.
- Added inactivity logout and Razorpay payment integration for a secure user experience.
- Utilized **Expo Secure Store** for secure user data storage.
- Successfully published the app on the **Google Play Store** and **Apple App Store**.

EDUCATION

Modern Education Society's Wadia College of Engineering, Pune University

Aug, 2018 – July, 2022

Bachelor of Engineering in Electronics and Telecommunication

- Graduated with a CGPA of **7.93 First class with Distinction**.

SKILLS

Frontend Development : Next.js, React, React Native, JavaScript, Tailwind CSS, HTML, CSS, Redux, React Router, Chrome DevTools.

Mobile App Development : Expo, Expo Router, Android Studio, EAS Build, Native Wind, TypeScript.

Deployment & DevOps : AWS EC2, PM2, Google Play Console, Amplify, Vercel, Webpack, Babel, Apple Developer, TestFlight.
