Highly skilled Frontend Developer with 2+ years of experience in building high-performance web and mobile applications using React, React Native, Next.js, and TypeScript. Proficient in SEO optimization, API integrations, state management, server-side rendering (SSR), and cross-platform mobile development. Currently expanding skill set to include backend development with Node.js, aiming to develop full-stack applications. **Immediately available for new opportunities**.

PROFESSIONAL EXPERIENCE

Markytics.AI   Dec, 2022 – Nov, 2024
Frontend Developer [Website](#) [Play Store App](#) [Apple App Store](#)

- **Built high-performance web and mobile applications**: Migrated a Django template website to Next.js, boosting performance by 50% and user engagement by 60%. Also, developed a cross-platform React Native mobile app from scratch using the Expo stack.
- **Collaborated with cross-functional teams**: Worked closely with backend teams for API integration and design teams for UI/UX optimization, with additional contributions to backend development and design prototyping in Figma.
- **Implemented state management and data fetching**: Utilized Redux, React Query and SWR for efficient global state and data fetching.
- **Integrated third-party services**: Integrated Razorpay for payments, Google Sign-In/Sign-Up, Google Analytics, and Google Captcha for security.
- **Deployed applications**: Deployed the website on AWS EC2 and AWS Amplify, and published the app on Google Play Store and Apple App Store.
